

MOJMIR NOVAKOVIĆ

RUBY DEVELOPER

ABOUT

Experienced Ruby developer, dedicated to well-tested code, continuous delivery and microservice architecture. Love building new things but, my lifetime experience taught me to respect any legacy code.

WORK EXPERIENCE

KoloIT

<https://kolo.it>
April 2014 – pres

Lead Developer

Kolo is a tool for presenting location on your website.

Highlights

- ◀ Ruby, Javascript
- ◀ MongoDB, ElasticSearch, Redis
- ◀ Jenkins, Docker, Docker Swarm, Traefik

Homeflow

<https://homeflow.co.uk>
December 2011 – December 2019

Senior Ruby Developer

Homeflow is a SaaS business, building estate agency websites and software. In 8 years I was responsible for maintaining legacy (Rails2.8) code, building/scaling/maintaining various applications and helping with strategic software development decisions.

Highlights

- ◀ mobile website (BackboneJS)
- ◀ internal/external redirection microservice
- ◀ "Boomerang" Lead email delivery service

Freelance

December 2008 – September 2011

Highlights

- ◀ Ruby On Rails (2010-2011)
- ◀ PHP (2008-2009)
- ◀ ActionScript3 (2008-2010)

Festival Ethnoambient Salona

<https://www.facebook.com/EthnoambientSalona/>
August 1998 – September 2016

Founder and Festival director

World Music Festival - Celebration of cultural diversity
